1pm to 2:30pm.
St. Mark's United Methodist Church, 2391 St. Marks Way, Sacramento.
"A Potpourri of Genealogical Search Tools" presented by Stephen P. Morse
The One-Step website started out as an aid for finding passengers in the Ellis Island database. Shortly afterwards it was expanded to help with searching in the 1930 census. Over the years it has continued to evolve and today includes about 200 web-based tools divided into 16 separate categories ranging from genealogical serches to astronomical calculations to last-minute bidding on e-bay. This presentation will describe the range of tools available and give the highlights of each one.
